Subject: Final Draft: Desk Statement RE: Dispute

"We have received letters informing us that several parties are exercising their option to dispute the contents of our Feasibility Study (FS), which scientifically supports our Proposed Plan for cleaning up Portland Harbor. The dispute process is provided for in the Administrative Settlement and Order on Consent (or legal agreement) that these parties signed to complete the RI/FS in 2001. We have already informed these parties and their legal counsel that we will carefully consider their dispute as we move forward in the path toward making Portland Harbor cleaner and healthier for all. The decision regarding these disputes, made by the EPA's Environmental Cleanup Office Director, is expected to occur simultaneously with the agency's remedy decision after considering all public comments along with the disputed issues. No delay to our schedule should result from these disputes."
